EDUCATION

Dibrugarh University Institute of Engineering and Technology
BTech Computer Sceince & Engineering *GPA: 7.68*

Dibrugarh
Aug 2019 - July 2023

EXPERIENCE

Wanderides

Frontend web developer

Guwahati

March 2023 - Present

- Spearheading Wanderides' shift to an online platform has led to a significant user transition, with 60% moving from offline to online.
- This responsive web application is transforming the way users review and book cars, offering a quick and seamless experience tailored to their preferences.
- To ensure seamless data flow and enhance the scalability of the project, I have successfully integrated Redux as a state management solution.
- Through strategic enhancements, I boosted Wanderides' performance by 10% and improved SEO and accessibility by 30%, establishing it as a reliable online vehicle rental platform.

INTERNSHIP

Andwemet

Frontend web developer

Remote

April 2022 - May 2022

- Developed all new user interface for a online dating platform.
- Leveraged React to construct a robust and scalable web application.
- Utilized the Material-UI library and its powerful Styled Components feature to fabricate reusable and highly customizable components.

Billok

Frontend web developer

Remote

January 2022 - March 2022

- Served as a key member of the development team, spearheading the creation of a web application focused on efficient invoice management.
- Partnered closely with the team, leveraging React and its diverse range of libraries throughout the entire project.

TECHINCAL SKILLS

Programming Languages: C, C++, JavaScript, HTML, CSS, Java
Frameworks: React.js
Libraries: Material-UI, Bootstrap, Redux, Axios
Developer Tools: VS Code, Git, Github, Insomnia, Linux
Other Skills: Android Development, Adobe Photoshop

PROJECTS

Employee Management system *React, Material-UI* <https://github.com/NihalP01/employee-management>

- Crafted an efficient Employee Management System with features like attendance tracking, payroll management, and payment recording.
- Designed a user-friendly interface, optimized attendance management, and automated the calculation of payable amounts.

Portfolio *React, Material-UI*

<https://nihalp01.netlify.app/>

- Constructed a personal portfolio website leveraging React.js and Material-UI, exhibiting my skills and projects.
- The site boasts a responsive design for optimal viewing on any device, underscoring my adherence to modern web development practices.

Weather *React, Redux, CSS*

<https://weather-nihal.netlify.app/>

- Engineered a weather application leveraging React.js and pure CSS, integrating Redux for state management and API calls.
- This project exemplifies my proficiency in modern web development technologies and my ability to craft efficient and scalable applications.
