EDUCATION

Dibrugarh University Institute of Engineering and Technology
BTech Computer Science & Engineering *GPA: 7.68*

Dibrugarh
Aug 2019 - July 2023

EXPERIENCE

Wanderides

Frontend web developer

Guwahati
March 2023 - Present

- I'm currently contributing to the development of Wanderides, an online vehicle rental service that was previously an offline booking platform.
- This responsive web application is revolutionizing the way users review and book cars, offering a quick and seamless experience tailored to their preferences.
- To ensure seamless data flow and enhance the scalability of the project, I have effectively implemented Redux as a state management solution.
- My strategic move has significantly improved the performance and reliability of Wanderides, making it a go-to platform for online vehicle rental services.

INTERNSHIP

Andwemet

Frontend web developer

Remote
April 2022 - May 2022

- Developed all new user interface for a online dating platform
- Used React to create a robust and scalable web application
- Used Material-UI library and its powerful Styled Components feature to create reusable and highly customizable components

BillOk

Frontend web developer

Remote
January 2022 - March 2022

- Was an integral member of the development team for creating a web application focused on efficient invoice management
- Collaborated extensively with React and its diverse range of libraries throughout the entire project

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, HTML, CSS, Java
Frameworks: React.js
Libraries: Material-UI, Bootstrap, Redux, Axios
Developer Tools: VS Code, Git, Github, Insomnia, Linux
Other Skills: Android Development, Adobe Photoshop

PROJECTS

Employee Management system *React, Material-UI* <https://github.com/NihalP01/employee-management>
Created an efficient Employee Management System with attendance tracking, payroll management, and payment recording. User-friendly interface, streamlined attendance management, and automatic calculation of payable amounts.

Portfolio

React, Material-UI

<https://nihalp01.netlify.app/>

Personal portfolio website using React.js and Material-UI, showcasing my skills and projects. The site features a responsive design for optimal viewing on any device, demonstrating my adherence to modern web development practices.

Weather

React, Redux, CSS

<https://weather-nihal.netlify.app/>

Developed a weather application using React.js and pure CSS, incorporating Redux for state management and API calls. This project demonstrates my proficiency in modern web development technologies and my ability to create efficient and scalable applications.

Online Currency Converter

Java, Swing GUI

<https://github.com/NihalP01/Currency-Converter>

Developed an online currency converter featuring real-time precious metal price conversions for gold, silver, and platinum. Utilized Java and a Swing GUI for a college mini-project, showcasing strong programming and user interface design skills.
